

SCHOOLNEST

Apart from the above-mentioned functionalities, the following are some of the benefits our client schools get from using schoolnest software;

1. Each and every functionality of the software will be behind a single mouse click.
2. Schoolnest is integrated, everything is accessible within the software itself.
3. Going fully digital. Breaking away from paper-based records and half-way digital systems.
4. Built-in validations that minimize human errors.
5. Real-time and accurate analytical data to support decision making anytime.
6. Reduction of school management costs based on old used data management systems.
7. Custom designs for some or all of the reports generated by the software.
